

THREATENED SPECIES HABITAT

TIME RESTRICTED SLASHING

- Mowing/ Slashing** DO NOT MOW OR SLASH during November, December or January. Mow or slash this area between February and October only. Do not mow or slash when the ground is wet.
- Drain cleaning** Clean drains as required but minimise the disturbed area. Remove spoil from the site and dispose of in a designated area (not on native vegetation).
- Scraping /Grading** DO NOT scrape or grade beyond the table drain in this area.
- Removal of material** DO NOT remove any material from this area, apart from drain spoil, unless it is essential. This material is likely to contain threatened plants, bulbs or seeds.
- Stockpile & Parking** DO NOT stockpile materials or park within this area.
- Pruning** DO NOT prune any plants here unless it is essential for safety or sightlines.
- Clearing, Digging & Construction** ABSOLUTELY NO construction, clearing or digging is to occur within this area.
- Weeding** DO NOT spray herbicide behind the furniture in this area. No other weed control actions to be done in this area.
- Machinery and Equipment** Avoid bringing machinery into road reserves in Threatened Species Habitat areas. If machinery has to be brought in it must be cleaned of any soil contamination before entering to avoid weed transport.
- Where is it** Site 1 is on the Arthur Highway north of Taranna, by Mason Point.
- Description of Values** Rare orchids occur in this area, some of which are found nowhere else in Tasmania. There may be specific active management at this site but it also requires some modification of routine maintenance activities to protect and encourage rare native plants.
- Management** Work in Threatened Species Habitat Areas is permitted by a Public Authority Management Agreement. Placement of Enviromark field markers assists in identification of these areas. Please report any damaged or apparently missing Enviromark field markers to the DIER Environmental Planner ph 6233 8753.
