J & P Modification - Requirement Guide

Use this chart to determine if alteration to vehicle configuration requires certification.

Use whichever axis aligns to the corresponding box, be it from the horizontal or the vertical it does not matter. If there is a tick then modification approval is required, if there is a cross then no modification approval is required.

Applies to all changes to body types/towing couplings on Heavy Vehicles from 01 July 2015, if not already certified.

Action Required

- X Vehicle classification or upgrade **does not require** certification. No modification or certification is required to issue the permit or process a vehicle configuration change.
- ✓ Vehicle classification or upgrade **requires** a modification or manufacturers plate to be affixed to the vehicle identifying the type of modification and when it occurred. Customer will need to supply a valid modification or manufactures plate number or undertake an inspection. See [Approved Inspection Stations – Heavy Vehicle](#) for inspection locations.
