

Update #5

Austrroads Guide to Temporary Traffic Management (AGTTM)

The Department of State Growth would like to inform you of an update from Austrroads.

Austrroads has released documentation relating to the National Training Framework and National Prequalification Scheme for Temporary Traffic Management for industry consultation and feedback.

Feedback can be provided to Austrroads using the Feedback Form available at the [Austrroads webpage](#). The feedback is due by 28 August 2020.

During the consultation period, Austrroads will be hosting national webinars to further discuss the training framework and prequalification scheme.

National Training Framework for Temporary Traffic Management:

This framework sets out a proposed process and training requirements for people working in the design, control or implementation of temporary traffic management.

Ultimately it will be incorporated into the Guide to Temporary Traffic Management Part 8.

Please [click here](#) to register for the National Training Framework Webinar on 17 August 2020.

National Prequalification Scheme for Temporary Traffic Management:

This scheme provides information on a proposed framework for companies wishing to become prequalified for temporary traffic management works.

This national scheme will replace any existing prequalification arrangement of the participating agencies.
