

Introduction;

For the purposes of VSB14 section LA (Engine) this bulletin outlines the applied policy of the Registrar of Motor Vehicles (RMV) relating to engine modifications and substitution.

Background;

VSB14 Code LA provides information on what is nationally accepted for selecting appropriate capacity engines and performance enhancing components that require modification certification.

LA section 2.13 includes reference to “recommended maximum engine capacity” complying with the guidelines of Table LA1.

Purpose;

The inclusion of the term “recommended” in this section requires clarification.

Actions;

The RMV has determined that the recommendations in Table LA1 of VSB14 code LA (section 2.13) are to be adhered to for AVC certification purposes relating to codes LA1, LA2, LA3 and LA4.

Exceeding the engine capacity relevant to the vehicles tare mass in the applicable sections of the table will not be accepted as a modification compliant with VSB14.

Questions?
