

Vehicle Examiners

Introduction;

This bulletin is to provide all Vehicle Examiner information in relation to the changes to the Application to Register a Light Motor Vehicle or Trailer Report (AA form).

Background;

The reason for the changes to the AA inspection report is the Motor Registry System (MRS) has been upgraded to provide consistent information to the National Exchange of Vehicle Data (NEVDIS)

What's Changed;

New Changes are:

- Added colour aqua
- Primary and secondary colour – need to write in the box 1 for primary and 2 for secondary
- Modification plate box – added State – need to write state the plate was issued in
- Added central steering position
- Added primary and secondary power – need to write 1 for primary and 2 for secondary
- Boxes on the form have changed, you will find items in different locations, therefore please familiarise yourself with them

When will the new book be distributed?

The new books will be in circulation when the existing stocks are exhausted at the Service Tasmania shops. We expect that the new book will be in circulation over the next few weeks. Continue to use existing books until they are finished. An example of a passed inspection report can be viewed over the page.

The next version of the manual will reflect these changes including samples

Questions?

Any further questions regarding this Special Information Bulletin should be directed to AIS Compliance on 6166 3270/3271 or ais@stategrowth.tas.gov.au.
