

Introduction

A recent re-print of Application to Register Light Motor Vehicle or Trailers (AA) has resulted in a few omissions on the form. We are seeking your assistance to ensure some relevant data is recorded for defined inspection processes.

ELECTRIC Motorcycles total Kw - if it's NOT recorded on the AA Tasmanian Registration cannot be achieved, your customer will be returned to the AIS for entry of this information onto the AA.

SPECIFICALLY Motorbikes - Primary Motive Power – Engine Capacity – CC/Kw

Engine Capacity (Motorcycles only) – Red Circle on Pages 2 and 3

This section is only used for motorcycles and the capacity is shown in cc's for vehicles with internal combustion engines or Kw for electrically powered motorcycles. If a motorcycle has more than one electric motor (eg separate wheel motors) you are to record the combined output of all motors in Kw.

VE's must record the **total** Kw output of the Motor/s fitted **not** the CCA or capacity of the battery fitted to the motorcycle.

Other Information:

- **RAV Entry Data** - VE's will still need to access the RAV and search the VIN to obtain specific vehicle information.
 - VE's may wish to Identify the vehicles visibility on the RAV Manually – please refer to Page 3 for an acceptable example.
- **SI Registration**
 - VE's may wish to still record the Class of SI Registration (A, B or C) next to the words Special Interest Registration as shown on Page 3.

Page 2 = Current AA Forms with differences highlighted

Page 3 = Example of suitable amendments

Questions?

Any further questions regarding this special bulletin should be directed to AIS Compliance Unit on 03 6166 3283 – **Peter**, 03 6166 3265 – **Polly**, or 6166 3271 - **John** , or email ais@stategrowth.tas.gov.au
