

LEGEND

- Access Excavation
- Access Embankment

NOTES

1) Earthworks are to be measured as solid volumes.
2) Provisional Quantities are based on the best knowledge available . No actual measurement is performed
3) Item for property accesses includes earthworks, pavement and seal. and culvert (if required).
4) Boxing out for localised existing pavement failure is included under that item and is not included in excavation.
5) Additional quantities for excavation, embankment and topsoiling where batters are flattened as per R.22 are not included in overall calculations.

This plan does not override anything contained in the specifications or detail plans.
